

# NETiDENT

## Modern and Customizable Dashboards

NETiDENT offers a state-of-the-art dashboard system designed for enhanced user experience and efficient network management.

### Modern and Customizable Dashboards

- **Modern User Interface:** Enjoy a sleek and contemporary dashboard design that enhances usability and visual appeal.
- **Customizable Layouts:** Tailor the display to show the data that matters most to you, with easy-to-use customization options.
- **Drill-Down Capabilities:** Navigate seamlessly from high-level overviews to detailed dashboards, allowing for in-depth analysis.

### Versatile View Creation

- **Executive View:** Create high-level dashboards for executives with key metrics and summaries.
- **Business View:** Design dashboards that focus on business-relevant data and performance indicators.
- **Operation View:** Set up dashboards tailored for operational monitoring and management.
- **NOC View:** Develop Network Operations Center (NOC) dashboards that provide real-time network status and alerts.

### Flexible Reporting

- **Date and Time Selection:** Generate reports for any desired time period with flexible date and time selection options.
- **Report Generation:** Quickly create comprehensive reports from the dashboard data, supporting informed decision-making and detailed analysis.

NETiDENT's modern, customizable dashboards and flexible reporting tools empower you to efficiently monitor and manage your network, providing clear insights and actionable data.
